

Merit Badge Class Capacities

Dear Adult Leaders,

As summer camp fast approaches and you are busily trying to schedule your scouts for merit badge class, we understand there may be frustration when merit badge classes reach their capacity. We design our Merit Badge classes to ensure we will be delivering the highest quality of instruction. During the off season we examine the past summers merit badges to determine what classes need expanded, dropped or what new badges we can offer. However, there are many factors such as equipment, space, and staffing, which may limit our ability to expand our offerings.

This year we will be taking steps to reduce the number of classes that are closed due to size. As Merit Badge classes reach their capacity, we will work to add additional sessions, when feasible.

How Can You Help

The largest constraint on Merit Badge class size is the number of qualified staff we have available to instruct individual badges. To alleviate this issue in the 2015 season, we are extending an invitation to adult leaders interested in assisting or instructing during their week in camp. If you or an adult leader you know has the desire to assist or instruct a merit badge that is at capacity or we do not offer please contact us at your earliest convenience. For this concept to work we request that any interested adult leaders contact us prior to the start of camp.

For more information please contact us at the email address below:

We thank you in advance for your patience and understanding while we work to improve our Merit Badge process. The goal of the Seven Ranges camp staff is to provide an exciting and educational program for all Scouts that attend camp.

Yours in Scouting,

Ben Miller | Reservation Director
